

Coverage and Affordability of Medications

Our goal is to assist you with getting medication to help manage your OAB. There are two components to the process-coverage and affordability.

Coverage:

We will submit information to your pharmacy benefits manager to determine coverage and prior authorization needs. This process could take up to 14 days for a response.

We will communicate the coverage response to you.

Affordability:

After coverage confirmation, we will obtain your cost share and communicate it to you.

You are responsible for securing financial assistance if the cost share is not affordable.

You are responsible for informing us of your decision to proceed or to request an alternate medication.

Assistance Resources:

GoodRX coupons – available through GoodRx.com.

Gemtesa Simple Savings Program (commercial insurance).

Gemtesa's Financial Assistance Program managed by GoodRx Prescription Services.

Astellas Patient Assistance Program (for Myrbetriq).

Canadian Pharmacy – you are responsible for choosing a pharmacy; we will send the script.
